

Distribution of semi-major axes of planets at $t = 0$ yrs [AU]

Distribution of semi-major axes of planets at $t = 1000000$ yrs [AU]

Number of planets in system = 5
Number of simulations = 25

	$t = 0$ yrs	$t = 1000000$ yrs
Average mass of the system [mj]	2.23	4.28
Minimum semi-major axis [AU]	5.1	3.36
Average eccentricity	0	0.36
Average num of planets ejected	N/A	3.0
